Balancing the receipts and expenditur
of the Village School Fund

The question of restoring the equilibrium of the Village School Fund receipts and disbursements has, for some time past, engaged my anxious attention, and I have considered it in all its aspects, and have had more than one personal discussion with the Inspector General on the subject

2 The income of the Village School Fund is derived almost entirely from 24 per cent of the local cess on certain items, the other 76 per cent being distributed between District Funds and Local Funds General It is quite clear that our District Boards, who themselves need more funds for local purposes, cannot afford a larger percentage for primary education than the present one The only feasible mode, therefore, of improving the income of the Village School Fund is by increasing the contribution from Local Funds General from 24 to 33 per cent, an increase which the latter can well sustain

3 A small income may be expected to accrue from the levy of fees now under consideration, but this I would set apart for the improvement of the salaries of Village School Masters who at present are not adequately paid

4 Next as to decrease of expenditure A heavy item in recent budgets has been the

the grant for works No buildings should ordinarily be hereafter constructed at the cost of the Village School Fund in the case of schools to be newly established the provision of accomodation is a duty which the villagers interested may well be expected to discharge Buildings have, however, in certain cases been already promised on the strength of contributions deposited by private persons after these promises are fulfilled, the normal building grant of Rs 5000 should not on any account be exceeded And as already directed, no more deposits should be received until further orders

5 There is reason to apprehend that some of the existing schools are in an unsatisfactory state either as regards strength, attendance or efficiency of teaching These should be abolished as soon as possible, or transferred to places where there is a real demand Additional expenditure either under this or under any other head should not be proposed unless indispensable

6 Mr Bhabha's proposal to transfer the following items of expenditure to State Funds seems reasonable and may be approved -

1) The cost of special instruction in the three Normal Schools This amounts to Rs 23,000, of which only a little over Rs 8000 is at present debited to State Funds
2) The cost of the Students' Home

Home attached to the ysore ormal chool, viz , Rs 1140

3) The whole of the grants to Anglo-Vernacul and Sanskrit schools, of which a moiety, or Rs 1566, is now borne by the Village School Fund

4) The contribution of Rs 1848 made by the Village School Fund towards the cost of certain clerical and menial establishment in the Inspector General's Office and the Central Book Depot

7 The above proposals which are calculated on the one hand, to raise the annual income by between 17 and 18 thousand rupees and, on the other, to cut down the annual expenditure by about Rs 19000, will I think afford all the relief that can be reasonably asked for With the improved financial position thus created, the income and expenditure ought to balance each other, and there should be no occasion under any circumstances to trench upon the funded capital

Camp Nandidrug
5 May 1903

Dear Mr Srinivasayangar

I am sorry your letter of April 22nd has remained unanswered till now chiefly because for the last week I have been suffering much from cold and fever

I have read your memo dated 31st March 1903 on balancing the receipts and expenditure of the Village School Fund I return it herewith with thanks

The means you have suggested of balancing the receipts and expenditure will just suffice to effect that object for the present, but you leave no margin for the future expansion of primary education and you make no provision for village school buildings The percentage of children of school-going age who are at school is less in Mysore than in Bombay or Madras, and if means are not devised for increasing largely the income of the Village School Fund the State must fall back and show a far smaller

1 2 3 4 5 Serial numbers in file &c Dates of important docum Write on both sides only

New works 14,325
Minor works & repairs 3 00
37 325

during the year 1903-1904, amounting to Rs 37,325

I suggest that, if it is not possible to increase the receipts of the Village

ercentage of children of school-going age at school
han the neighbouring Bntish Provinces As far as
I understand your proposals, you recommend that
he share of the Village School Fund in the Local
ess derived from Abkari, Supari in districts other
han Shimoga and Kadur, and Miscellaneous Item
hould be raised from 24 per cent to 33 per cent,
nd the share of the Local Funds General reduced
rom 76 to 67 As I have more than once pointe
ut the nature of Local Funds General is abnormal
nd the expenditure from Local Funds General on
Budges and Irrigation wells may be provided fro
the funds allotted to DPW and District Fund
Budgets The annual income of Local Funds Gener
is about one lac, from which lately an annual
expenditure of about Rs 41000, leaving out the
Initial Expenses amounting to Rs 9000, has been
lately sanctioned for the Engineering and Indus
al schools. Your proposal would take away abo
Rs 18000 from the Local Funds General and ada

them to the receipts of the Village School Fund. This addition is insufficient for the needs of the Village School Fund. I would suggest that the percentage allotted to the Village School Fund from the Local Cess levied from Abkari be raised from 24 to 50 per cent. This increased allotment would add Rs 50000 to the income of the Village School Fund in place of Rs 18000 recommended by you and it can be utilised for a wider dissemination of primary education.

I strongly deprecate the proposal that no new village school buildings should hereafter be constructed by Government. A good school building, well lighted and well ventilated, with clean surroundings is in itself a means of education to village boys. There is a large balance, of over two lakhs I believe, to the credit of the Local Funds General. No better use can be found for this balance than to devote it to village school buildings. If a grant of Rs 30000 is given from this balance for Village School Buildings for several years the important villages may be

I would suggest, that, if it is not possible to increase the receipts of the Village

provided with neat buildings on the standard plans

The increased income from fees when fees will be levied in village schools, is badly wanted for increasing the scale of pay of village masters and as you recommend should not be otherwise utilised

I hope Government will kindly consider and approve of these suggestions at their early convenience

Yours sincerely
H J Bhabha

Subject Village school buildings

The allotment of funds for —
the the budget Estimates of the
village school funds for 1903-04
Letter No 9335/332 d the
27th april 1903 from the Dfl
of Edn in Mysore

Note

The I Gl has entered in the budget estimates (V school fund) for 1903-1904, Rs 5000 for village school buildings it being the normal allotment for the purpose

He now submits a list of village schools for which appropriations will be required during the year 1903-1904, amounting to Rs 37,325 ⊗

Rs
34,325
3000
37 325

The I Gl suggests that, if it is not possible to increase the receipts of the Village

Village school Funds (10) to an extent which would permit of adequate expenditure being incurred on school buildings, that Government may be pleased to sanction a liberal grant for buildings for some years to come from the large balance of Rs 2,44,750 to the credit of the Local Funds General on the 30th June 1902

The question of improving the resources of the village school Fds is now before the Dewan

Submitted for orders

Kel

N B The provision sanctd for buildings for the year 1902-1903 is Rs 16,000 (vide budget Estg Statmt)

The accompanying printed memo shows the principle on which the Local Funds General are administered

This came up before the Council a few days ago - & it was resolved that it should be considered along with the Budget for 1903/04 - ll 21/5/03

There is an important Court Business and I should like to discuss it personally with Mr Bhabha as usual before submitting my opinion. Let me have this file back as soon as I return to Bangalore next week.

The Secy may ask Mr Bhabha to see me about this on the morning of Monday the 1st Prox at 8 A.M.

Subject Village school buildings

Distribution of the amount of Rs 15000 (including the normal grant of Rs 5000) sanctioned for village school buildings in GO No 192-3/ED dated the 16th July 1903

Letter No 4981/163 dated the 8th Dec 1903 from the DPI on the above

The DPI proposes the following distribution of the amount of Rs 15,000 on several kinds of village building works —

	Rs
I Incomplete buildings	506
II New works	11,764
III Minor works of repairs (within the DPI's powers of sanction)	2,730
	15,000

He requests that the above distribution be approved

It is submitted that the

the costs received from the Dept of
Do not furnish information as to
which of the works will be executed
by the D.P.W. and which by the
Deptt under the Rl rules recently
sanctioned by Govt, the amount
expended by the D.P.W. on account
of works executed (Govt Depts) by that Deptt
should be shown in the accounts
of the D.P.W. and not in the
accounts of the departments,
the amount required on account
of such works being transferred
from the Deptt concerned to the D.P.W.
so information as to what
amount out of Rs 15,000 has to be
so transferred to the D.P.W. will
have to be obtained from the Dept
of Edn

A draft is accordingly
submitted for approval

Arthur Ill

57 Sep 02

= = In continuation of my letter No 8627/301 dated 4th April 1903 forwarding the budget estimates for 1903-1904 of the previously sanctioned charges of the Village School Fund, I have the honour to submit a list in the usual tabular form of the urgent requirements of buildings for village schools. I am aware that the present receipts of the Village School Fund do not admit of an adequate expenditure on village school buildings, but I hope that Government will be pleased to sanction at their early convenience such an increase in the normal receipts of the fund as will enable the department to provide at least a few good buildings for village schools every year, and

to keep in decent repair and arrange for sufficient light and ventilation in all other school buildings. I consider that a good school house is in itself a means of education to the improvident who is not accustomed to live amidst very clean or healthy surroundings. If it is not possible to increase the receipts of the Village School Fund to an extent which would permit of adequate expenditure being incurred on school buildings, I would submit that His Highness Government may be pleased to sanction a liberal grant for buildings for some years to come from the large balance of Rs. 2,44,750 to the credit of the Local Funds General on 30th June 1902.

2 All the buildings included in the statement are either those towards the cost of which the people have made a fairly large contribution or are such as are required for large schools in populous towns and villages. The 57 new buildings, of which 30 will be Kaccha, are estimated to cost Rs. 34,325, and a sum of Rs. 3000 is as usual required for minor works and repairs. I request that Government may be pleased to make as liberal a grant for buildings as they can under the circumstances.

I have the honour to be,
Sir,
your most obedient servant,
H. J. Bhabha

Remarks

The Inspector is 33 and the average attendance 28 The present building situated in the midst part of the narrow street is ill-suited for the girls' School A new building on a healthy site is necessary. The present building will fetch about 1000 Rs if sold which may go towards the cost of the new School

The people's contribution of 400 Rs has been paid into the Taluk Board towards the cost of the new construction The villagers are too poor to give more. Roll 37, average daily attendance 27.
The Inspector now proposes a building of the II Design The strength is about 100

The cost roughly estimated by the Executive Engineer It detailed Estimate has yet to be called for

The site is a large and important one & the people have contributed 100 Rs towards new construction besides granting a building site worth 150 Rs. The school is now held in a stone mantapam (15' x 6') very inconvenient for School purpose

The Inspector is 40 The amount of contributions paid by the people is 100 Rs and by the Amildar He states that a suitable site has been selected for the new building - The present building is unsuitable

necessary to erect a new building separately for the Hindustani School
in this place. The estimate has been prepared by the Ex. Engr & the
total cost includes the P.W.D establishment charges.

work is urgently required. The estimate prepared by the Ex. Engr.
Northern Division includes the P.W.D establishment charges.

H.J. Bhabha
Inspector General
of Edn

5-1

N. B. stimated the requirements
of the year 1903-1904 at
Rs 37,325

Govt regret that such
a large sum as Rs 37,325/-
cannot be sanctioned
in a single year. They
are aware however that
contributions in a large
number of cases have
been received and that
promises made have
to be fulfilled They accordingly
fix the provision for buildings at Rs
15,000 (inclusive
of the normal provision) for 1903-04
The Dfl is requested to submit
as usual at an early date a
fresh list of buildings for which
appropriations will be made
available out of the
sanctioned grant.

Sir,

With reference to G O No 192-3/Ed dated the 10th July 1903 I have the honour to forward herewith two lists one for Incomplete works requiring an appropriation of Rs 500 and the other for New works for which a probable appropriation of Rs 11704 has been entered for the current official year The balance viz Rs 2730 will be utilised for minor works and repairs which are urgently wanted In the column of appropriations in the enclosed list of New works only the net cost to Government has been entered wherever the people have made a contribution towards the cost of the school buildings, the estimated cost being reduced by the amount of the people's contribution this practice has been followed in accordance with para 2 of G O No 5899-00/Ed F 20-96 dated 22nd November 1897 I request that Government may be pleased to sanction according to the enclosed lists the distribution of the Rs 10000 allotted
